

## PUBBLICAZIONI 2008

1. Gavioli R., Cellini S., Castaldello A., Voltan R., Gallerani E., Gagliardoni F., Fortini C., Brocca-Cofano E., Triulzi C., Cafaro A., Srivastava I., Barnett S., Caputo A., and Ensoli B. The Tat protein broadens T cell responses directed to the HIV-1 antigens Gag and Env: Implications for the design of new vaccination strategies against AIDS. Vaccine, 26:727-737, 2008.
2. Caputo A., Brocca-Cofano E., Castaldello A., Voltan R., Gavioli R., Srivastava I.K., Barnett S.W., Cafaro A., and Ensoli B. Characterization of immune responses elicited in mice by intranasal co-immunization with HIV-1 Tat, gp140 ΔV2Env and/or SIV Gag proteins and the nontoxicogenic heat-labile Escherichia coli enterotoxin. Vaccine, 26:1214-1227, 2008.
3. Dehò L., Walwema R., Cappelletti A., Sukati H., Nsibandze D., Almviva M., Buttò S., Ensoli B., Galli M., and Balotta C. Characterization of human immunodeficiency virus type 1 from antiretroviral drug-naïve population in Swaziland. AIDS Res. Hum. Retrovir., 24:323-325, 2008.
4. Ridolfi B., Genovese D., Argentini C., Maggiorella M.T., Sernicola L., Buttò S., Titti F., Borsetti A., and Ensoli B. Tat protein vaccination of cynomolgus macaques influences SHIV-89.6P<sub>cy243</sub> epitope variability. Virus Genes, 36:105-115, 2008.
5. Borsetti A., Baroncelli S., Maggiorella M.T., Bellino S., Moretti S., Sernicola L., Belli R., Ridolfi B., Farcomeni S., Negri D.R.M., Cafaro A., Ensoli B., and Titti F. Viral outcome of simian-human immunodeficiency virus SHIV-89.6P adapted to cynomolgus monkeys. Arch. Virol., 153:463-472, 2008.
6. Sgarbanti M., Remoli A.L., Marsili G., Ridolfi B., Borsetti A., Perrotti E., Orsetti R., Ilari R., Sernicola R., Stellacci E., Ensoli B., Battistini A. IRF-1 is required for full NF-κB transcriptional activity at the HIV-1 LTR enhancer. J. Virol., 82:3632-3641, 2008.
7. Gudmundsdottir L., Bernasconi D., Hejdeman B., Sandstrom E., Alaeus A., Lidman K., Ensoli B., Wahren B., and Butto' S. Cross clade immune responses to gag p24 in patients infected with different HIV-1 subtypes and correlation with HLA class I and II alleles. Vaccine, 26:5182-5187, 2008.
8. Caputo A., Sparnacci K., Ensoli B., and Tondelli L. Functional polymeric nano/microparticles for surface adsorption and delivery of protein and DNA. Curr. Drug Delivery, 5:229-242,2008.
9. D'Archivio M., Scazzocchio B., Filesi C., Vari R., Maggiorella MT, Sernicola L., Santangelo C., Masella R. Oxidised LDL up-regulate CD36 expression by the Nrf2 pathway in 3T3-L1 preadipocytes. FEBS Lett.,582:2291-2298,2008-10-22.

10. Suligoi B., Buttò S., Galli C., Bernasconi D., Salata RA., Tavoschi L., Chiappi M., Mugenyi P., Pimpinelli F., Kityo C., Regine V., Rezza G. Detection of recent HIV infections in African individuals infected by HIV-1 non-B subtypes using HIV antibody avidity. J. Clin. Virol.,41:288-292, 2008.
11. Florese RH., Wiseman RW., Venzon D., Karl JA., Demberg T., Larsen K., Flanary L., Kalyanaraman VS., Pal R., Titti F., Patterson LJ., Heath MJ., O'Connor DH., Cafaro A., Ensoli B., and Robert-Guroff M. Comparative study of Tat vaccine regimens in Mauritian cynomolgus and Indian rhesus macaques: influence of Maritian MHC haplotypes on susceptibility/resistance to SHIV896P infection. Vaccine, 26:3312-3321, 2008.
12. Ensoli B., Fiorelli V., Ensoli F., Lazzarin A., Visintini R., Narciso P., Di Carlo A., Monini P., Magnani M., and Garaci E. The therapeutic phase I trial of the recombinant native HIV-1 Tat protein. AIDS, 22:2207-2217, 2008.
13. Ruggiero E., Bona R., Muratori C., Federico M. Virological consequences of early events following the cell-cell contact between HIV-1 infected and uninfected CD4+ cells. J.Virol, 82:7773-7789, 2008.
